## Skills Development and Supply Goods

**Empowerment:** We equip youth, women and people living with disability with accredited skills that foster independence, innovation, and long-term growth.

**Inclusivity:** Our training prioritizes youth, women and people living with disability within mining communities, ensuring broad participation in mining value chains.

**Compliance:** All programs align with national frameworks (OHS, NEMA, ISO 14001, B-BBEE, and QCTO) to meet regulatory expectations.

**Sustainability:** Skills transfer builds resilience, reducing reliance on external expertise and strengthening mining community capacity.

**Safety First:** Provision of PPE and consumables ensures worker protection and mining operational compliance.

**Reliability:** Consistent supply chains minimize downtime and support efficient mining and operations.

**Quality Assurance:** Goods are sourced and supplied to meet industry standards, enhancing credibility regulators.

Local Impact: Procurement strategies stimulate regional economies and support small enterprises within the mining communities.
